EDUCATION

University College London **Sep 2026 – Jun 2029**
BSc (Hons) Computer Science
Predicted: First Class

Altrincham Grammar School for Boys **Sep 2018 – Jul 2025**
A-Levels: Mathematics (A), Computer Science (A*), Further Mathematics (A), Physics (A)*
GCSEs: 9 grades 9–8 including Mathematics (9), Sciences (9), French (9), Electronics (9)

AWARDS AND COMPETITIONS

Samsung Solve for Tomorrow – UK Winner (16–18) **Jan 2025 – Jul 2025**
Samsung Electronics UK
- Pitched SanoBand, an ML-based mobile system designed to detect alcohol cravings and trigger real-time interventions
- Conducted 100+ user surveys; consulted addiction researchers and pivoted from a wristband to a smartwatch app
- Won the 16–18 category and £10,000 from a national field of 508 applicants (link)

IRIS Awards – Best Research Project **Dec 2023 – Jun 2024**
Institute for Research in Schools • Big Data: ATLAS
- Extended the project brief beyond histogram analysis, using an LSTM to classify Higgs events in LHC collision data
- Won Best Research Project among 300+ competing students; poster featured on IRIS's awards page (poster)

BP-funded AFS China Scholar **Feb 2023 – Aug 2023**
AFS Global STEM Academies • University of Pennsylvania
- Selected from top 3% of candidates worldwide; four-week funded STEM programme in China and twelve-week Global Citizenship certification (University of Pennsylvania CSIS), focusing on intercultural relations

Arkwright Engineering Scholarship **Sep 2023 – Jul 2025**
Sponsored by the Worshipful Company of Ironmongers
- One of 328 scholars selected from 1,391 UK applicants after an engineering aptitude exam and panel interview

TECHNICAL PROJECTS

3D Graphics Renderer **Mar 2025 – Jul 2025**
C++ • SDL2 • Repository
- Built an interactive 3D wireframe renderer with a free-fly camera and OBJ model loading
- Wrote custom vector and matrix maths, model-view-projection transforms, perspective division and frustum rejection

Caius Explore – Quantum Cryptography Paper **Mar 2024 – Jul 2024**
Gonville & Caius College, University of Cambridge
- Co-authored a winning paper applying Shor's algorithm to the elliptic-curve discrete logarithm problem, and assessing BB84 and entangled-photon QSDC as quantum cryptography methods (paper)

Astro Pi Mission Space Lab – Flight Status **Dec 2022 – May 2023**
ESA Education • Raspberry Pi Foundation
- Wrote a Python experiment that ran on the ISS, logging orientation-sensor data to model relativistic time dilation in orbit
- Achieved flight status; used collected ISS data to build a C++ app visualising relativistic wavelength shift (project)

EXPERIENCE

Batch 1 | Redwood Founders – After Hours **Jun 2026 – Aug 2026**
- One of 20 teams selected for Redwood's 8-week $0 \rightarrow 1$ incubator; mentored by YC and EF alumni
- Built and pitched convyio.com, a team chat platform where people and AI agents work together in shared channels

Data Systems Coordinator – ST **Sep 2025 – Present**
- Maintain records for 250+ students and 25+ classes; process and store annual intake data
- Built Python/Excel automations to clean and transfer data between systems, cutting admin work from 8+ to $\sim$2 hours

Language Reading Teacher – Bayaan Academy • WMA **Sep 2024 – Jul 2026**
- Taught Arabic reading to 30 adults and two groups of $\sim$15 children, adapting lessons to varied ages and abilities
