EDUCATION

Altrincham Grammar School for Boys

2018–2025

A-Levels

- Mathematics (A*), Computer Science (A*), Further Mathematics (A), Physics (A)

GCSE

- 9 GCSEs grades 9–8 including Mathematics (9), Sciences (9), French (9), Electronics (9); plus FSMQ Further Maths (A – highest grade)

EXPERIENCE

Data Systems Coordinator – SimplyTajweed

Sept. 2025–Present

- Maintain data management systems; standardise data intake, process and store records, and build automated workflows to improve efficiency using Python, Excel.

Tajweed Teacher – SimplyTajweed • Bayaan Academy

Sept. 2024–Present

- Teach a class of 30 adults and two classes of 15 children; design structured lessons, tailor methods to varied ages and learning paces, and set personalised goals with ongoing feedback

IT Director Shadowing – Work Experience Placement • Yodel

Jul. 2024

- Shadowed IT Director and management team, gaining insight into cybersecurity, technical infrastructure and product development workflows

SELECTED PROJECTS AND AWARDS

Samsung Solve for Tomorrow UK winner (16–18)

2025

- Pitched SanoBand, an ML-based mobile system detecting alcohol cravings and triggering real-time interventions; led 100+ user studies; awarded £10,000 by Samsung ([link](#))

Institute for Research in Schools – Best Research Project • CERN Atlas ML Study

2024

- Applied Recurrent Neural Networks to classify Higgs Boson events using LHC collision data (97% test accuracy); published as the best IRIS Research Project 2024

AFS–BP Global STEM Academies – China Scholar

2023

- Selected from top 3% of candidates worldwide; four-week funded STEM programme in China and twelve-week Global Citizenship course (University of Pennsylvania CSIS)

Arkwright Engineering Scholar

2023

- Selected as one of the UK's top engineering students through a competitive national process recognising exceptional technical aptitude and innovation

ADDITIONAL PROJECTS

Tract – Hack for Gaza

2025

- Developed a prototype app to track children and missing families in war-zones; built core UI and mapping infrastructure in 48 hours ([landing page](#))

3D Graphics Renderer (C++)

2025

- Built a wireframe graphics engine from scratch in C++; implemented a complete transformation, rotation and rasterisation pipeline for 3D model rendering

Research paper – Caius Explore Competition (Cambridge University)

2024

- Authored a winning paper analysing the impact of Shor's Algorithm on elliptic-curve cryptography and quantum key distribution methods
